Can you escape?

LOST IN SPACE

You are the crew of NASA's first mission into interstellar space. After 25 years of Cryogenic sleep. you have woken up to find out your space vehicle has been damaged by debris and you are hurtling toward a black hole. If you do not get the updated coordinated into the navigation system within thirty minutes, you and your crew will not survive.

GAME DAY

You are the starting high school football team. You are playing an away game against your cross-town rivals. It is half time and the score is tied. the opposing team is up to no good and has locked you in the visiting locker room. If you can't follow the clues and get out in 30 minutes by the time of half time, you are going to forfeit the game.

BIO-CHEMICAL WARFARE

You are a crew of scientist working at a division of the Center for Disease Control. You have received warning that a terrorist group has released a bio-chemical weapon on a plane in route to JFK airport. You have 30 minutes to finalize the antidote and rush the formula to the airport before the plane lands in thirty minutes.
